DISTRIBUTION

The background of the entire page is a dynamic, abstract composition of light. It features several bright, diagonal streaks of white and light blue that sweep across the frame from the top-left towards the bottom-right. These streaks are set against a deep, solid black background, creating a sense of high speed and energy. The light trails vary in thickness and intensity, with some appearing as sharp, thin lines and others as broader, more diffuse bands of color. The overall effect is reminiscent of a long-exposure photograph of a fast-moving object or a stylized representation of data or motion.

Impressions on Demand

Monsterbotic Industries is proud to introduce Impressions on Demand. It is a fresh new way of looking at the production of your imprinted apparel.

With this service your blank apparel is stored and decorated at our facilities. Rather than committing your inventory with traditional direct to garment production, high quality silk screen transfers are used so that your apparel is decorated on demand thus eliminating added costs and risks.

Key Benefits:

- Low Minimums
- Inventory flexibility greatly enhanced
- Investment risks limited to printing costs
- Offer your designs on more colors and styles

Product Distribution

Combine Impressions on Demand with our cutting edge distribution services and have all of your apparel decorated and shipped from one location!

Share a limitless variety of designs across your inventory

Flexible apparel options with each impression.

Distribution

Monsterbot Industries back-end distribution solutions are built on our commitment to customer service and operational efficiency. Storage and movement of your products through our facilities will help you reduce your time to market, streamline your business processes, and improve your ROI.
